

summer 2024

# CREATE CAMPS

Create Campers use design thinking processes to explore art, craft, and design!

Multiple 1 week options available for grades 1-6

## Learn from Artists!

Our Teaching Artists are experienced artists, designers, and educators! Teaching Artists connect processes and concepts behind artwork in the museum with age appropriate projects and techniques.

## Look at Artwork in the Museum!

All camps include behind the scenes access to the museum vaults and galleries where campers look, listen, and learn about artworks — inspiring their artmaking in the classroom!

Create Camps teach kids how to  
look at, talk about, and create art!
